Contribute to the

Future of Youth Ringing

By learning how to teach bell handling before going to University or College.

Young Ringers' ART Bell Handling Course

If those attending weren't **fired up to teach the next generation of recruits to our wonderful hobby** before entering the ringing chamber, by the end of the day we all certainly were!

I didn't start ringing that long ago. Certainly, when I did start, I had no idea that I would end up learning to teach so soon.

The course was enjoyable and un-threatening, **with lots of opportunity to try out techniques** on easy bells with friendly colleagues.

I triumphantly tamed a wayward bell rope for the first time. And conquered some of those 'what ifs' that have previously prevented me from teaching.
